Enabling Your Dreams

Entrepreneurs are essential to the American economy. That goes for urban and rural businesses and everything in between. But many entrepreneurs struggle to find the resources, funding and expertise they need, due to geography or simply lack of connections. Connections to people who can help!

SBV Entrepreneur Network

The SBV Entrepreneur Network connects entrepreneurs to each other, to mentors, investors, technical service providers, educational resources, professional trainers, and consultants to start and grow businesses. SBV built the network to connect stakeholders and enhance Kentucky's Entrepreneur Ecosystem. The SBV Entrepreneur Network invites business owners, mentors, consultants and support organizations to connect. The network helps you connect to the information, expertise, coaching and capital you need regardless of where you are. You can grow your business faster when you have the support of a strong entrepreneurial network.

Check Out What The SBV Entrepreneur Network Has For You

Entrepreneurs

Whether you're in start-up or scaling mode, get instant access to the help you need when you need it, regardless of where you are. Join the SBV community to connect with other entrepreneurs, experts and mentors, use assessment tools to help you figure out next steps and gain access to educational content to take the pain out of managing a business.

Funders & Lenders

Expand your reach, find more investments to choose from and educate entrepreneurs on your processes.

Mentors

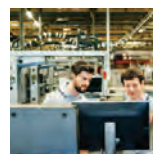

Find entrepreneurs who share your passions and need your guidance.
Be matched by area of expertise, industry and/or geography.

Support Organizations

Nonprofits, incubators, accelerators and universities can expand their reach by easily connecting their expertise with people who need it.

Research IP

Get rid of exhausting IP searches. On the network, entrepreneurs and IP owners connect to leverage the latest breakthrough technology.

Communities

If you are an existing community, alliance, incubator or support organization, the SBV Entrepreneur Network provides the perfect place to gather and share knowledge and resources.

How it Works

The SBV Entrepreneur Network powered by Entrep has robust search capabilities. Get started by creating profiles for yourself and each of your Organizations (businesses). You can provide as much, or as little information as you want, but remember, you want to be able to find the right people and they want to find you!

Connect

It really is about who you know. Once your profiles are in place, you can search by geography, skills, location, industry and so much more to find the people, companies, mentors, support organizations and communities that you need to know.

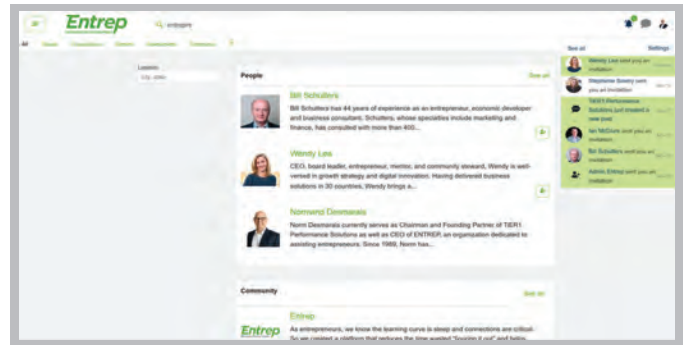

- **Connect** with other people.
- **Follow** other Organizations.
- **Join** Communities.

Learn & Assess

Finding great business education content shouldn't be such a hassle.

The network makes accessing great business educational content simple. Everything you've viewed is stored in My Content so you don't have to dig to find that great video you saw three months ago. Includes Assessments from leading organizations to help you understand the skills you have and the ones you need to lead your business today and tomorrow.

Communicate

Sharing and receiving information should be easy. You can post information or questions as an individual or organization. Communication can be targeted to a community you belong to, your organization's followers or your personal connections. Do You Need to:

- Hear from other companies in your industry about their experiences with a product you are considering?
- Connect with expertise not available in your local area?

SBV Entrepreneur Network is the place to go.

Your News Feed keeps you up-to-speed on the information shared from your network, and you can chat 1:1 or in groups with your connections.
